

The biggest , most secure and resilient coop for transporting chickens on the market

PIEDMONT

- Smooth and round surfaces minimize bruising and broken wings, preventing injuries during coop handling
- The spring latch keeps birds safely locked in the coop
- The special design guarantees maximum ventilation, with quicker and easier cleaning
- Perfect interlocking reduces danger of load shifting
- UV stabilizer reduces ageing due to solar rays
- Very simple to assemble: push fit-self locking
- No special equipment needed for assembly. Simple pressure assures the complete assembly of the coops
- HD polyethylene UV stabilized (compliant with FDA & EEC)
- Capacity: 18/20 birds (dependent on climate and weight)
- Top sliding door: 14.96" x 16.50" (38 x 42 cm)
- Size: 38" x 23" x 10.6"
