

TURBOGROW® Chick Feeder

TURBOGROW®

Description:

Second generation bird feeder for the reception of the broiler in floor or in crate during its first 14 days of life.

Features:

- Manufactured with 100% virgin plastic and additives
- Conical-cylindrical design that consists of a hopper with 6 windows of food distribution and a "W" shaped pan.
- Capacity of 4.5 kg. (10 lb.)
- Recommended density of 1 TURBOGROW® for every 50 to 100 chicks.
- Thanks to its design, the stowed is quick and easy, occupying a minimum amount of space.
- Height 7 ½" (19 cm).
- Diameter of the plate 10" (25 cm).

Benefits:

- Greater weight gain during the first week of life between 0.02 to 0.15 lb.
- Greater weight gain at the end of the flock between 0.17 to 0.26 lb.
- Uniformity enhancements of 15 %.
- Decrease in feed conversion.
- Mortality and cross infection are reduced.
- Greater number of flocks per year.
- Quick return on investment.

Packaging:

Box w/ 30 sets.
