

Turbomate 2 Chick Feeder

Sephnos TurboMate 2

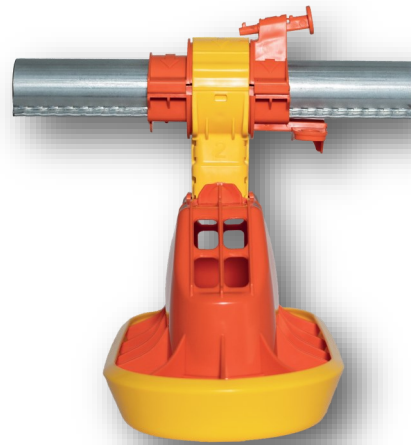

Automatic bi-directional feeder for baby chicks from 1 to 18 days of age. Consists of a Hopper with open windows above and fins down, Pan with double cone, long rotating hanger and Clamp with a closing pin and a "T" Shutter.

Features

- Made with 100% high-density virgin plastic and additives that provides a high resistance and durability.
- Bi-directional rotary system -170° and $+170^{\circ}$, that allows to activate or suspend its use in a single movement: 0° = "ON Activated and $\pm 170^{\circ}$ = "OFF" Not Activated.
- The clamp is easy to install around the metal feeder tube (smooth or ripe) and remains permanently fixed.
- Recommended density: 1 TURBOMATE 2® for every 50 to 100 chicks.
- To be installed with or without automatic feeders that have high height, considering the distance of the floor to the lower level of the tube, from 9"-11".
- Capacity: 2.6 lb.
- Greater live weight from the first week to the end of the flock.
- Reduce mortality and cross infections.
- Improve Feed Conversion.
- Promotes intestinal integrity avoiding litter intake.
- Easy to wash and disinfect.

- Greater weight gain
- Improves feed conversion
- Increase uniformity
- Greater integrity intestinal
- Less feed waste
- Improves labor time
- Fast return of investment
- Easy to wash and disinfect
